Plant a ZINNIA GARDEN to a Plan

ZINNIA GARDEN COLLECTION No. 191

\$2.25

VALUE FOR ONLY

\$1.50

This is a special offer; cannot be substituted or altered.

IT'S EASY! Simply follow the plan shown below.

We have tested this plan in our own trial grounds. Results and blends of color are marvelous.

If you are a Zinnia enthusiast, try it. If you are not one already, try the plan, and you will find yourself mightily pleased.

Size of plot is 20x30 feet. The number before each color of flower denotes the amount of plants required for that plot. The plots can be easily marked out by string or stakes. Scale of $\frac{1}{8}$ inch equals 1 foot will make the plan a couple of feet larger, but will work out nicely.

All the types of Zinnias, giant, medium and lilliput, are found in this group, including the novelties "Tidy-tipped Picotee", "Fantasy", and "Black Knight."

This is a regular value of \$2.25; entire collection is offered at.....\$1.50

When ordering ask for Collection No. 191.

Plant Zinnias in flats in March and April, in the open in May, June and July.

THE VARIOUS TYPES OF ZINNIAS

The above illustration of Zinnias showing fifteen different types, proves that seed breeding is an art. It is the knowledge of selection of parent seed plants by the grower, which produces the perfect blooms. We have been working with Zinnias for half a century (but still have much to learn, of course). Therefore we are able to supply you good seeds because we have the knowledge, the skill, and the facilities necessary for their development.

31 Gracillima Mixed. Smallest type. Plants average one foot high and are many branching, with slender stems and miniature flowers hardly one inch across. Extremely floriferous. Pkt. 25c; 1 oz. \$2.00.

10 Linearis. New, stream-lined, single, dwarf. Golden-orange with lemon-yellow stripe, very showy and longest blooming period of all Zinnias. Pkt. 25c; ½ oz. \$2.50.

88 Haageana or Mexicana Zinnia. Elegans type, mixed colors. Charming small semi-double flowers in yellows and mahogany-red shades. Plant is 10 in. high. Pkt. 15c; 1 oz. \$1.50.

100 Lilliput, or Cupid Pompon Type. Mixed colors. Baby flowers, perfect miniatures in form and color of the most beautiful and double giant Zinnias. Pkt. 15c; 1 oz. \$1.00.

35 Navajo or Gaillardia Flowered. Mixed colors. New, unique, double, semi-double flowers. Pkt. 25c; 1 oz. \$1.50

39 Pumila Dwarf Double, Miniature Elegans Type. Mixed colors. Double, rather flat-flowered bloom resembling in miniature form the California Giant Zinnia. Pkt. 15c; 1 oz. 85c.

49 Early Wonder or Gaiety. Mixed colors. Flowers are 2½ inches across, plants one foot high. A gay mixture of colors, blooming very early. Pkt. 25c; 1 oz. \$1.50.

19 Scabiosa-flowered, Crested Type. Lilliput, mixed colors. Charming, unusual flowers 2½ to 3 inches across, with a broad ray of outer petals surrounding a cushion-like mound of quill-like petals. Pkt. 15c; 1 oz. \$1.50.

15 Fantasy, Curled Type. Mixed colors. New, medium-sized Pkt. 25c; 1 oz. \$1.50.

59 Pumila, Elegans Picotee. Mixed colors. Petals are tipped in contrasting colors, flowers 3 inches across. Pkt. 15c; 1 oz. 85c.

69 Cactus-flowered. Quilled petals, mixed colors. Giant blooms oddly quilled. Plants 3 ft. high, profuse bloomers. Pkt. 15c; 1 oz. \$1.50.

206 Double Giant. Robusta Plenissima. Double, special mixture. Pkt. 15c; 1 oz. \$1.00.

184 Mission Giant. Balloon-flowered type, mixed colors. Huge, rounded blooms very compact, 5 to 6 inches across. The most perfect of all large-flowered types. Pkt. 15c; 1 oz. \$1.25.

149 Dahlia-flowered Giant. Mixed colors. Petals somewhat loosely arranged, resembling the Dahlia, huge blooms, double. Pkt. 20c; 1 oz. \$1.50.

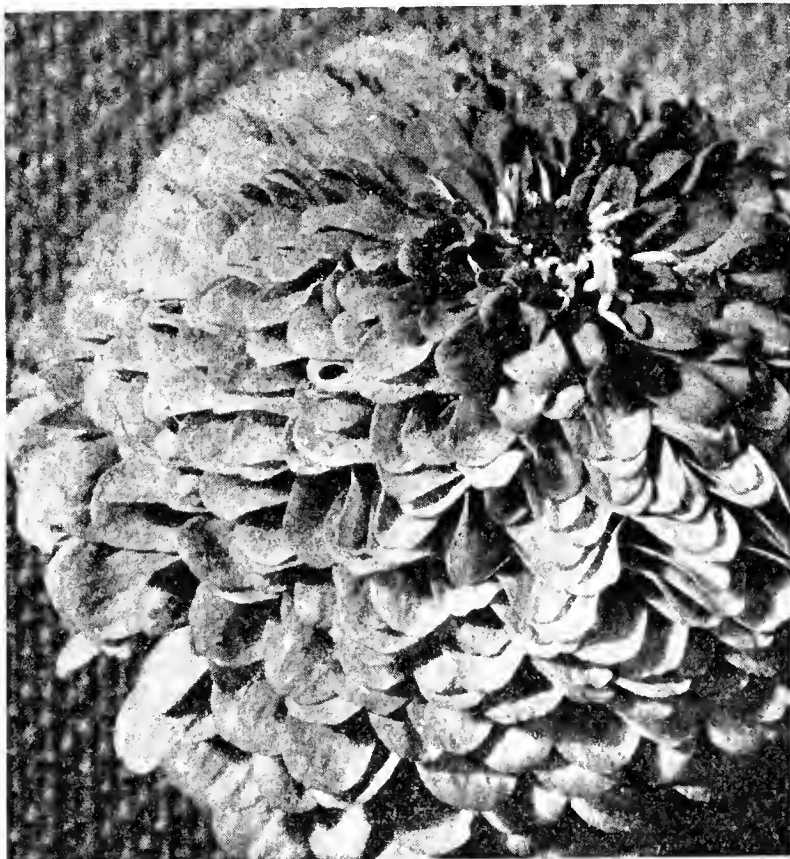

223 California Giant. Mixed colors. Mammoth-flowered type, flowers sometimes 7 inches across, somewhat flat in form. Very double. Pkt. 15c; 1 oz. \$1.25.

"All-Type" Collection Offer No. 200. One packet of each of the above, a complete collection of all these types, valued at \$2.80, for.....\$2.00

Fraser's World Famous Zinnias

Giant Mission Zinnia, Balloon Flowered Type, double, robusta grandiflora

This group is the result of years of plant selection to develop a perfect Zinnia; and we do not hesitate to recommend it as the most perfect of all large flowered types. The Balloon-flowered type, as the name implies, is more rounding than the Mammoth and the petals are more closely set, over-lapping as do camellia petals, very compact and symmetrical. Color range is greater than in the Mammoth type, and they have been developed to a high state of doubleness; all of which tends to make them America's most perfect large flowered Zinnia.

Zinnia Giant Balloon

180 "BLACK GIANT". A new addition to this group this year. Color is a deep blackish-maroon. Pkt. 15c.

177 Mission Lavender Princess. Lavender shades from silver lilac to deep orchid.

178 Autumn Glory. Buff shades becoming tinted with bronze and soft autumn colors as they age.

179 Mission Buttercup Yellow. Unusually fine form in soft creamy-yellow shades, slightly lower in growth than other Balloon types.

181 Crimson-Scarlet Beauties. Perfect range of red shades.

182 Mission Salmon Queen. Salmon-rose shades, two-toned flowers, bright and lively.

183 Poppy Gold. Rich shades of golden and chrome yellows between our Burnt Orange and Daffodil in depth; similar to the California Poppy.

160 Mission Majestic Rose. Rich warm carmine-rose, different from other rose shades and very outstanding.

161 Mission White Snowball. Few people realize the beauty of the true white Zinnia.

170 Mission Burnt Orange. Striking, richly colored in orange shades with deeper orange centers.

162 Mission Pink Shades. Two-toned effects as they age, fine cut flower.

164 Mission Radiant Rose. Radiant, soft deep rose shades, two-toned effects as the flowers age.

166 Mission Golden Trophy. Perfectly shaped flower of clear yellow shades.

172 Mission Purple Profusion. Deep, rich purple shades, perfectly formed.

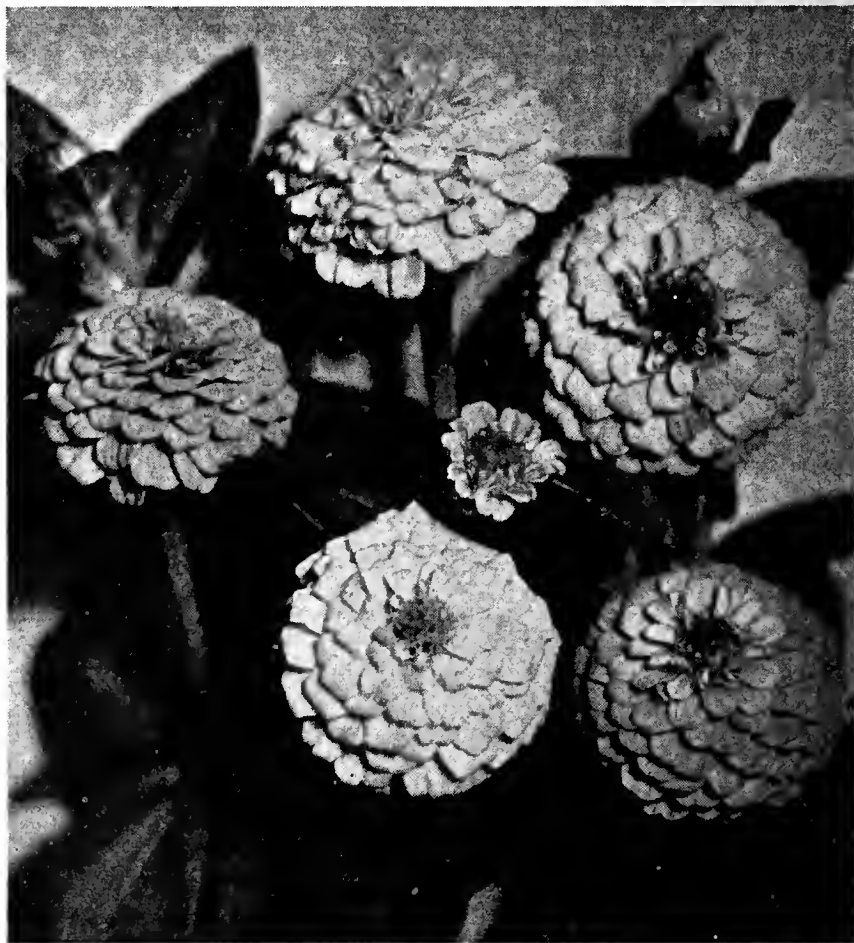

163 Scarlet Red Boy. New scarlet.

Any of the above varieties: Pkt. 15c; 1/4 oz. 40c; 1/2 oz. 75c; 1 oz. \$1.25.

Giant Mission Zinnia (Continued)

184 Mission Grande Mixture. Including all shades of the California Mission Zinnia shades in one packet. Pkt. 15c; 1/4 oz. 40c; 1/2 oz. 75c; 1 oz. \$1.25.

185 Mission Pastel Shades. A beautiful blend of all the soft delicate shades in the Mission Zinnias. Pkt. 25c; 1/4 oz. 50c; 1/2 oz. 85c; 1 oz. \$1.50.

Cut-and-Come-Again Zinnia

MINIATURE MISSION ZINNIA

Cut-and-Come-Again

(Elegans Pumila Flora Pleno)

This variety has been termed "the florist's flower", being the most popular of all Zinnias among the cut-flower trade. This variety is most uniform in size of flower and plant; blossoms measure about 2 inches across and have long stems. About 100% double and prolific bloomers.

23 White. 24 Golden Yellow.

25 Golden Orange. 26 Crimson-Scarlet.

27 Salmon-Rose. 28 Pink Shades.

29 Black Knight, black maroon.

39 Blended Mixture. All of the above separate colors mixed.

41 Delicate Shades. No red or orange in this special mixture.

Any of the above: Pkt. 15c; 1/4 oz. 30c; 1/2 oz. 50c; 1 oz. 85c.

California Giant ZINNIA

This variety is one of the largest of Zinnias. Flowers are very double, large petaled, and somewhat flat in form, the average flower is from 5 to 6 inches across, under proper cultivation many attaining 7 inches. We have obtained by continued selection a wide range of shades which in most cases come true to color and type.

SPECIAL COLOR MIXTURES

247 Art Shades. A special blend of all the best rich, flashing colors of the California Giant Zinnias. Deepest of the rose, yellow, orange, scarlet and purple shades. **Pkt. 25c.**

249 "All American" Giants. A mixture combining all the colors in the California Giant Zinnias (Mammoth Flowered type) and our California Mission Zinnias (Balloon flowered types), and some new shades as well. This gives you the greatest variety of all mixtures in color and form. Plants do not vary over about a foot in height. **Pkt. 25c.**

246 Purple and Gold Combination. A balanced formula of California Giant and Mission purples, lavenders, oranges and several yellows, from fine strains. **Pkt. 25c.**

248 Golden West Blend. This combination ranges through all the rich yellows, golden yellow and orange shades of the California Giant Zinnias. Highly recommended. **Pkt. 25c.**

Above special color mixtures: ¼ oz. 50c; ½ oz. 85c; 1 oz. \$1.50.

Separate Colors of California Giant Zinnias

210 Mammoth Orange King. Gorgeous golden yellow and orange shades, many two-tones.

211 Mammoth Scarlet Gem. A wonder in size and depth of color, bright scarlet.

212 Mammoth Vermilion Queen. Brilliant, vivid vermilion verging to rose.

214 Mammoth Daffodil. Brilliant canary yellow shades.

215 Mammoth Rose Queen. Bright rose shades with deeper rose center.

216 Mammoth Pink Perfection. Bright lively pink shades, stronger than Mammoth Pink Profusion.

217 Mammoth Pink Profusion. Glorious shades of light, delicate pinks, some deepening, some with salmon flush, others light flesh pinks.

219 Mammoth Enchantress. Beautiful rose shades with deeper rose centers; distinctly a two-toned flower. Very lovely.

222 Mammoth Lemon Queen. Petals loosely arranged, similar to Scarlet Gem, bloom is lemon-yellow.

224 Mammoth Purple. Violet-purple shades, huge flowers, petals somewhat loosely arranged.

223 Mammoth Giant Wonder Mixture. Including all the California Giant Zinnia shades in one packet.

Any of the above separate or mixed colors: Pkt. 15c; ¼ oz. 40c; ½ oz. 75c; 1 oz. \$1.25.

"ALL ZINNIA" GARDEN MUCH ADMIRER

"We wish to say that the 'All Zinnia' Garden plan has been a source of great pleasure to us and to a great group of our friends, being admired more than any other planting in our garden. We shall re-plant this garden again next year."—Mr. W. H. Kimmel, Aberdeen, Mississippi.

ZINNIAS

By EDGAR A. GUEST

Old-fashioned Zinnias seem to me
Like certain patient friends and true,
Who seek no words of flattery
Nor any praise for what they do,
But are the first when sorrows fall
With offerings of help to call.

Some friendships and some flowers appear
Too pale and delicate to last.
Too pale and delicate to last.

Who loves them dwells in constant fear
Of thoughtless word or icy blast.
The least contrary wind may end
The fragile bloom or fragile friend.

But Zinnias have a sturdier way,
No pampering from friends they ask.
Whenever planted they will stay
And blithely go about their task.
Whatever winds or storms descend
On Zinnias you can depend.

(Copyright, 1932, by Edgar A. Guest)

We are proud to say that Mr. Guest has been buying
our Zinnias for several years.

ZINNIA LINEARIS

FRASER'S IMPROVED ASTERS

In few other plants have such strides been made in improvement of varieties, as has been among the asters. Asters bloom all through the summer and autumn from plants started in seed boxes under frames, beginning in January and continuing until May. This program will give blooming plants from May until October or later. If you do not care to go to this trouble, seeds may be planted in the open ground in April or May. You will want at least one portion of your garden set aside for the "Queen" of autumn flowers.

CALIFORNIA WILD FLOWER SEEDS

WHEN TO SOW WILD FLOWERS

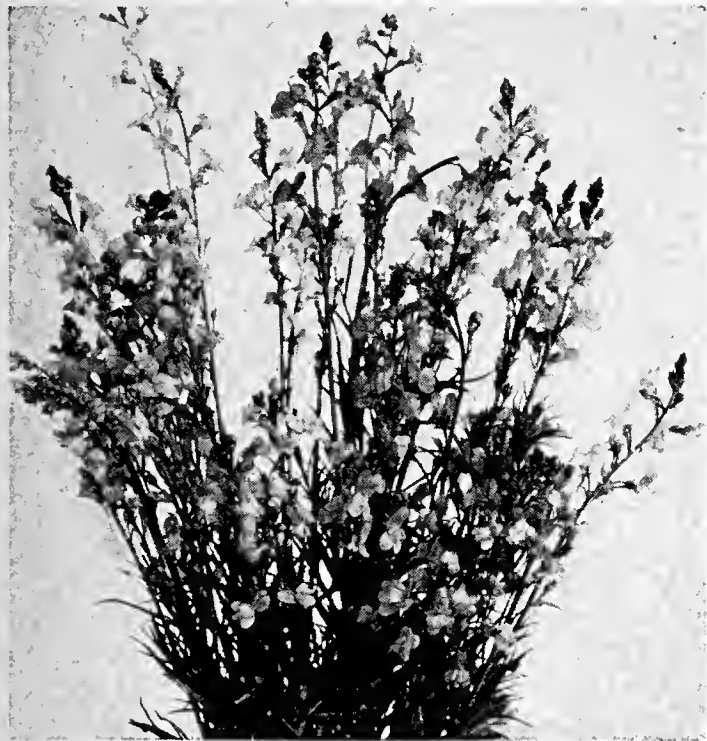

Annuals. The best time to sow the annual wild flowers is early in the fall before the first rain or during the early part of the rainy season. The seed will germinate soon after the first rain following the sowing and in seasons with a normal rainfall will require no further attention. Later sowings may be made up until the beginning of February, but these later sowings may not succeed quite as well as those sown in the fall and the blooming period, when natural rainfall is depended upon, will be shorter. Where artificial watering can be practiced, sowings can be made up until the early part of March.

IN THE EASTERN STATES

Perennials. The perennials can be sown at almost any time of the year, late spring to early fall being a very good time. Most species if started at this time of the year will flower the following spring and summer.

In the eastern states follow the same instructions as given for California, but sow in spring as soon as the cold weather is over.

California Sun Ripened wildflower seeds should always be planted in the natural or "wild" garden if nature is to be imitated.

2509 *Linaria Miniature* or Wild Snapdragon. Pkt. 15c

QUANTITY OF SEED REQUIRED

Figure 5 to 8 lbs. of seed to the acre, depending upon whether area is clear or has shrubby growth. For small gardens, 1 oz. will sow from 150 to 200 sq. ft. This amount will vary somewhat according to existing conditions. Average city lot of 50x150 ft. requires about 1 to 1½ lbs. of seed to 5000 sq. ft. It is advisable to mix the seed with sand or screened soil before scattering evenly over the ground.

SCARLET LARKSPUR

2026 *Delphinium Cardinale* — Scarlet Larkspur. Perennial. Native of Southern California, usually found blooming in the early summer on the dry, chaparral covered slopes of the foothills and Coast Range mountains. After most other wildflowers have passed this Larkspur sends up its flaming torch-like flower spikes to a height of 3 to 4 feet. Pkt. 35c.

California Native Wildflowers Collection No. 2010

This seed is valuable for brightening open spaces in vacant lots, in parkways and in corners of the garden. Ours is a souvenir mixture of the most beautiful types of true native California flowers.

2009 *General Mixture*. A mixture of choice varieties for all-around planting.

Any of above packets. Pkt. 25c, Oz. \$1.00

CACTUS SEED

2081 *Death Valley Cactus*. A fine assortment of California desert types suitable for growing in bowls or developing for your cactus garden. Pkt. 25c.

California Poppies in Sunset Rainbow Shades

Eschscholtzia—California Poppies

When the Padres came into California they found dainty cups of gold growing over the mountainsides and through the valleys. The common wild variety is a native of several western states and the State flower of California. But the new California poppies are much improved, in that we now have a remarkable color range with larger and better flowers. Our sun ripened seed represent this vastly improved strain. California Poppies are easily grown and practically free from garden pests. They are perfectly hardy in the eastern states; we have known them to self-seed for five years as far north as Massachusetts. Few people know the trick of keeping them as cut flowers; merely cut the flowers or large buds in the early morning before they open.

CALIFORNIA BLUE BELL

2037 Phacelia Campanularia. Grows 1 to 1½ feet high. Intensely vivid dark lobelia blue flowers borne profusely in clusters. One of the quickest annuals to flower from seed sowing. Pkt. 15c; ½ oz. 50c.

2038 Wild Heliotrope—Phacelia Tanacetifolia. Annual, lavender blue, used extensively for bee food. Grows 1½ to 2 ft. tall. Pkt. 15c; oz. 50c.

2041 Phacelia Viscida. A most lovely, hardy annual. The blooms are saucer shaped and of the most brilliant blue. The plants are a foot or more high. Pkt. 25c; oz. \$1.50.

Many of the Choicest Strains of Seed which we could formerly only gather in sufficient quantities for the raising of our fine annual and perennial flowers, and for limited distribution in Southern California, we now make available for gardens all over the world—for those who desire excellence in floral beauty. It costs much more to produce, but only little if any more to buy and no more to grow the best.

CALENDULA

Scotch Marigold

BALLS OF GOLD FOR THE UNIVERSE

Hardy Annual—18 in.

A Very Popular Universal Garden Flower

In mild sections it is simplest to sow calendula seeds where the plants are to grow, two or three seeds together, spaced at intervals of 12 inches. After they have germinated and thrown out their first pair of leaves, select the thriftiest one and pull out the others, leaving one plant to mature in each planting. In mild climates they may be planted in fall for winter blooming. In colder sections they may be planted inside or in hot beds in March or April and transplanted to the garden in May. Seeds may be sown in the open ground after all danger of frost is past.

405 Calendula, Crested, Orange Fantasy. Distinctly different from any other Calendula. Color is coppery-orange with petals edged deep brownish-red; outer petals long and inner petals short and curled, to form a bronze-colored, crested center. Award of Merit, All-America Selections for 1938. **Pkt. 25c.**

405 Calendula—Orange Fantasy. Pkt. 25c

410 Fraser's California Improved Orange King. Double golden orange. **Pkt. 15c; ½ oz. 25c; oz. 50c.**

408 Tournament of Roses Favorite. "Orange dazzler" frilled beauty. Fine new variety, stiff petals, double, orange. **Pkt. 25c; ½ oz. 40c; oz. 75c.**

CALLIOPSIS

Tickseed

Hardy Annual

The dwarf Calliopsis is a splendid thing for edging, low massed plantings or rockeries. The richly marked flowers come in shades of yellow, orange and mahogany. Plants grow about one foot high and are of easy culture. Sow where they are to grow. Fine for cutting.

2271 Calliopsis, Golden Crown. Larger than Calliopsis Golden Wave, and semi-double, but of the same cheery golden yellow, with small maroon center-zone. Flowers are fragrant, on 1-foot stems, making Golden Crown ideal for both cutting and bedding through spring and summer. A quick and easy annual. Award of Merit, All-American Selections for 1938. **Pkt. 25c.**

2271 Calliopsis—Golden Crown. Pkt. 25c

2269 Hybrida. Double semi-plena mixed colors. **Pkt. 15c.**

HIS 5th LETTER

"This makes about the fifth straight year that I am writing you about the true value of your Sun-ripened Aster seed. As usual, at the last Toledo Horticultural Society Flower Show, thanks again to your seed, I took all color first prizes. My plants are kept growing with the least of care, for I work away from home every day and only try to raise flowers for a hobby. No matter what, I remain a steady Fraser Sun-ripened seed user."—Mr. C. W. Paeth, 2433 Lambert Drive, Toledo, Ohio.

PRIZE WINNERS

"Here I am again to show you some prize winners from Colorado State Fair of Petunias from your sun-ripened seeds. I have success by planting them in rich soil and pruning often for strong plants and profusion of blooms."—Miss Blanche Smith, 1605 Carteret, Pueblo, Colo.

2307 Centaurea—Blue Boy. Pkt. 25c

"Remember the brighter the garden, the brighter the day"

TWO BEAUTIFUL CENTAUREAS

Centaurea Imperialis, known as the "Sweet Sultan," is one of the best annual cut flowers. Centaurea Cyanus, "Blue Bachelor Button," is an unusually good cut flower and a fine bedding or border annual. A combination of the Centaurea Imperialis Yellow and the Blue Boy Bachelor Button makes a most striking bouquet.

C E N T A U R E A S

CENTAUREAS

MOST SATISFACTORY ANNUALS, COLORFUL
AND EASY TO GROW

Both the Cornflower and Sweet Sultan are very desirable for cut flowers as well as for garden display. It's no trick to grow them, just plant them in the garden where they are to flower, supply them with water and you'll have many beautiful bouquets as your reward.

DOUBLE CORNFLOWER or BACHELOR BUTTON

CENTAUREA CYANUS

Hardy Annual—2½ ft.

A flower that few gardeners care to be without, they are of easiest culture, showy in the garden and splendid for cutting. They ask little and give much. Plants grow 2 to 3 feet tall and like a rich soil.

2301 Fraser's Blue.

2302 Fraser's Maroon.

2304 Fraser's White.

2305 Fraser's Rose.

2306 Fraser's Carmine.

Fraser's Flame Celosia, dwarf varieties. Plants grow about 12 inches, compact. Good for pot culture and very striking when used in solid beds.

2284 Fire Flame, flame red shades. Pkt. 25c.

2285 Afterglow, warm, chrome yellow. Pkt. 25c.

CELOSIA, OSTRICH PLUME, Tall varieties, 2 to 2½ ft. tall.

2287 Ruby. Red shades.

2288 Golden. Golden yellow shades.

2289 Mixed. A blend of the above two shades. Any of the above, Pkt. 15c; oz. \$1.00.

CALIFORNIA SEED IN ILLINOIS

"I purchased your Zinnias and followed your plan for a Zinnia Garden, but on a larger scale, 55x35. Ribbons were won on the Fantasy and Mexican Zinnias at Flower Shows. The garden contained 1500 Zinnias. Personally, I had some misgivings about using California grown seeds in Illinois, but my fears proved to be imaginary. In fact, 'I was very happy about the whole thing.' The Novelty Sunflowers also created unusual interest; many thought they were Dahlias. Carnations from your seed did very well, too, and I have several in pots in the house now, growing and blooming."—Mr. Carl F. Albrecht, 576 Bryan St., Elmhurst, Ill.

NEW BLUE-BOY CORNFLOWER

2307 Bachelor's Button. Centaurea Cyanus "Blue Boy". Famous Blue Boy Blue. Very double, extra deep blue flowers of enormous size. We believe this superior to all other strains. Super Pkt. 25c; ¼ oz. 35c; 1 oz. 75c; ¼ lb. \$2.00.

2303 Cornflower "Jubilee Gem." Dwarf, compact, dark, double blue. Pkt. 25c.

GIANT SWEET SULTAN

CENTAUREA IMPERIALIS

Hardy Annual—2½ ft.

An indispensable annual for cutting or garden display. Sun Ripened seed is "free flowering", long season and produces giant double flowers on long, strong stems. Colors are simply beautiful and flowers sweetly fragrant.

2311 Fraser's Amaranth Red. A new color, outstanding for exhibition purpose.

2312 Fraser's Brilliant Rose.

2313 Fraser's Deep Lavender.

2314 Fraser's Purple.

2315 Fraser's White.

2316 Yellow (Suaveolens). Rich, yellow, a glorious combination with the Blue Bachelor Button when used in bouquets.

2319 Fraser's Blended Mix. All of above separate colors mixed. Any of above colors: Pkt. 15c; ¼ oz. 30c; ½ oz. 50c.

DUSTY MILLER CENTAUREA

Hardy Perennial

2340 *Gymnocarpa*. Planted extensively for low borders because of its silvery white foliage. Grows about 10 inches tall, bearing small light lavender flowers. **Pkt. 15c.**

2339 *Candidissima* (*Cineraria*). Silvery white foliage and golden yellow blossoms. Compact, 8 to 12 inches. **Pkt. 20c.**

JAPANESE HARDY GARDEN CHRYSANTHEMUM from Seed

Hardy Perennial—3 ft.

2371 *Fraser's Daisy-Flowered*. This hardy perennial chrysanthemum is an improved strain over the ordinary perennial chrysanthemum familiar to most gardeners. It may be treated as an annual if started in February, bursting into a cloud of tinted blooms in late September and October. **Pkt. 35c.**

2349 Annual Painted Daisy. Pkt. 15c

ANNUAL PAINTED DAISY CHRYSANTHEMUM

Hardy Annual—2½ ft.

An improved strain easily grown from seed. Makes a showy plant covered with daisy-like flowers.

2348 *Golden nivellii*. Similar to the common Painted Daisy, but flowers are 2 to 3 inches across and a rich golden yellow.

2349 *Fraser's Painted Daisy Mixture*. Single of most beautiful colors.

Any of above: **Pkt. 15c; ½ oz. 30c; oz. 50c; 4 ozs. \$1.50.**

2341 *Double Carinatum Hybrida Mixed*. 60% true to type. Bright cheerful shades of purple, scarlet, yellow and white. One of the best. **Pkt. 20c.**

CASCADE CHRYSANTHEMUMS

Hardy perennial.

2372 *Chrysanthemum Japonicum* — "Japanese Cascade". Single-flowered, mixed colors. Very hardy, of easy culture, blooming the same autumn from seed. Pinch two or three times for a good shaped bush, and stake. When properly cultivated will hang as long as 4 to 6 feet, and be 2 ft. wide. **Pkt. 50c.**

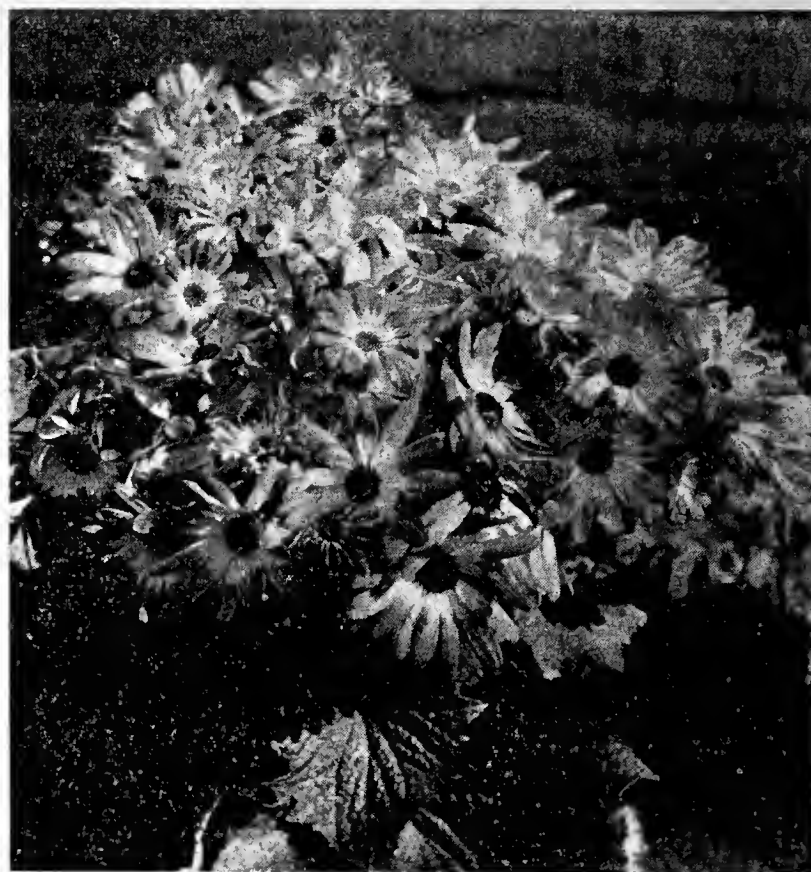

2373 *Chrysanthemum Japonicum* — "Japanese Mountain". Double Anemone-flowered, fine mixed colors. **Pkt. 75c.**

CHEIRANTHUS

GOLDEN SIBERIAN WALLFLOWER

Hardy Biennial—12 in.

2487 *Fraser's Choice Gold Blend*. An early perennial with rich, velvety orange flowers; never grows more than a foot high; a distinct addition to rockeries and for border or bedding effects. **Pkt. 15c.**

2397 *Cineraria*—H & S Strain. Pkt. 50c

CINERARIA

FRASER'S PRIZE STRAINS

Biennials treated as Annual.

CLARKIA ELEGANS

Butterfly Flower

Hardy Annual—2 ft.

They grow easily from seed and should be started in cold frame in March or in the open ground in May, except in California or other very mild sections where they can be sown in fall or early spring. They enjoy partial shade, but will accommodate themselves to either sun or shade.

2408 *Enchantress*. A beautiful soft shade of salmon-rose, very double and excellent for cutting. Develops best in a cool climate and flowers six weeks from sowing. **Pkt. 15c; oz. \$1.50.**

2409 *Fraser's Double Choice*. Mix of rainbow colors. **Pkt. 15c; ½ oz. 60c; 1 oz. \$1.00.**

2852 *Canary Bird Vine* (*Tropaeolum Canariense*). Cine. Light yellow, bird-like, fringed flowers, on rapid climber; sow January to May. Germination period 10 days. **Pkt. 15c.**

515 *Canna*. Perennial Seeds. Vivid pinks, yellows, oranges and reds, useful for foliage and flower mass effect; flower first year from seed, which soak; 3 feet; sow January to May. Germination period 2 weeks. Crozy's Hybrids Mixed. **Pkt. 15c.**

COLEUS

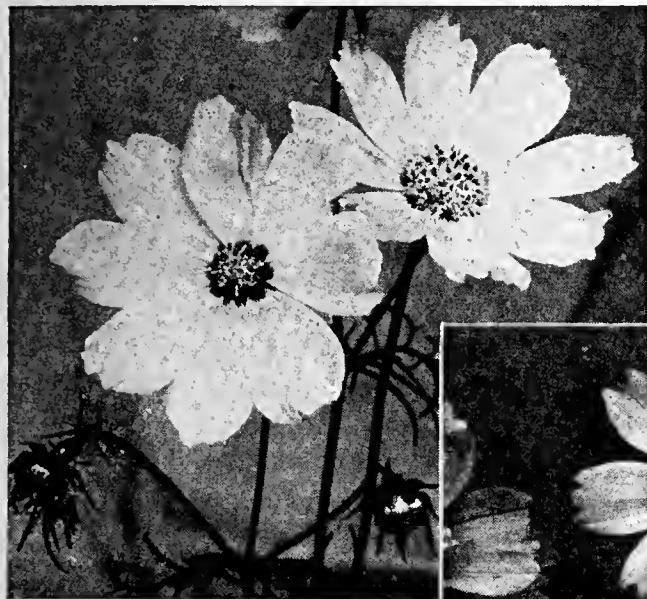

Tender Perennial—2½ ft.

2411 *Pyrenees Giant, Mixed*. A most beautiful foliage plant for beds or pot culture. Leaves are gorgeously variegated with many rich colors, and never any two alike. Develops most colorfully in sunny position, excepting in hot interior countries, where partial shade should be provided. **Pkt. 35c.**

COSMIDIUM**Brown-Eyed Daisy**

Annual. For cutting and display 2 ft.

2416 Brown-eyed Daisy. Native of South America. A winsome little flower with brown center circle with maroon and edged with bright, cheerful golden-yellow. Wonderful for bedding, border or cut flowers. Planted from May to June, where they are to grow, will flower in 70 days from seed. **Pkt. 15c.**

COSMOS . . . Extra Early

Annual. For cutting and display, 5 to 6 feet, July to October. **ANOTHER MUCH FAVORED ANNUAL, SUPPLYING THE LATE SUMMER AND FALL GARDENS WITH QUANTITIES OF ARTISTIC-SHAPED FLOWERS WANTED FOR CUTTING PURPOSES**

The seeds can be sown in open ground about the middle of June in mild sections and in March and April in the hot bed or cold frame in colder sections of the country thinning the germinating plants to three inches apart. When they are transplanted, after the ground is thoroughly warm, they should stand two feet apart. Cultivate frequently but lightly for best results if the tops are pinched out when the plants are about ten inches high the plants will become more bushy and compact in growth.

461 Fraser's Early Pink Cherokee. Mammoth flowering type, color like the beautiful single Cherokee Rose.

462 Fraser's Early Red Cherokee. Mammoth flowering. Bright red like the well known Red Cherokee Rose.

463 Fraser's Early White Cherokee. Mammoth flowered, a pure white like the White Cherokee Rose.

464 Fraser's Color Harmony Mix. A choice blend of all above colors.

Morning Glory—Clark's Heavenly Blue

COBAEA—Cathedral Bells

Half-Hardy Perennial

2535 Violet Blue. Half-Hardy perennial. Foliage deep green and flowers large bell-shaped of greenish cast in the bud changing to a deep violet blue. Prefers wire netting or rough boards on which to climb. Hardy in California and mild sections. Rapid grower. **Pkt. 15c.**

HUMULUS

Hardy Annual

JAPANESE VARIEGATED HOP

2876 Japonicus variegatus. The feature of this attractive climber is the silvery white and yellow variegated leaves. The plant is a very rapid grower, covering the side of porch or fence in a few weeks time. Free from pests. **Pkt. 15c.**

AUSTRALIAN PEA VINE

Tender Perennial

2881 Australian Pea Vine (Dolichos lignosus). Makes a rapid luxuriant green growth. Rosy-pink pea-shaped flowers in clusters cover the vine in great profusion. This vine is suitable only for mild climates such as California and extreme southern states. **Pkt. 15c; oz. 50c.**

NEW AND RARE ORNAMENTAL GOURDS, IN MIXTURES AND SEPARATE VARIETIES

Gourds grow in most every section of the world, and we have gone to great expense to give our customers very selected and new varieties. Gourds will grow in the poorer soils because they do not go so much to vine and more to the fruit. They may be trained on trellises as ornamentals or used as ground covers. The fruit should be allowed to become ripe and hard before picking. After picking, scrub thoroughly clean and cover with varnish. It is becoming a great hobby all over the world to decorate by hand the hard shelled types.

2863 J. Raymond's Warted Hybrids. This is a novelty mixture of the finest colored warted types. **Pkt. 25c.**

2864 Crown of Thorns. (From Africa). A most unusual gourd which needs no varnish. Has curved claws, not sharp, but very unusual. **Pkt. 25c.**

2865 Green Muranca. (From Guatemala). Resembles an Indian war club. **Pkt. 25c.**

2870 Penguin or Bottle Gourd. (From Egypt). This is a hard shelled type and can be painted black and white to resemble a penguin. **Pkt. 25c.**

2858 Turks Turban. (From Asia). Very odd and ornamental. Top red and center portion cream with green and white stripes. **Pkt. 15c.**

2856 Many Sorts Mixed. A good selection of all the best types of Gourds. **Pkt. 15c.**

2857 Small Decorative Types Mixed. The best of the small striped types, such as egg, spoon, pomegranate and pear-shaped. **Pkt. 15c.**

2859 Giant hard-shelled Gourds, mixed. These contain the large acorn, large bottle calabash, pipe gourd, dipper or syphon, and the Hercules club Gourds. **Pkt. 15c.**

2855 Navajo Indian Corn. The seed of this ornamental Indian corn on the cob is most exquisite. The kernels are agate-color pure white, jet black and pink. When bunched with ornamental hangings or in a bowl with Gourds it is most fascinating. **1 oz. Pkt. 15c.**

JAPANESE KUDZU VINE

2886 Pueraria thunbergiana. Perennial climber starting new shoot each year from the root crown. Drought resistant. Makes 40 to 50 feet of growth each season, once established and 8 to 10 feet the first year. Large bright green leaves and purple pea-shaped flowers borne in clusters adds to its attractiveness. **Pkt. 15c.**

IPOMOEA

MORNING GLORY

Hardy Annual

Popular for trellis, arbors, fences and so forth. They should be planted where they are to grow, in April or May, in well-dug, rich soil. If the seeds are soaked in luke warm water several hours until they show signs of swelling before planting there will be a better germination.

MADAME BUTTERFLY EXTRA LARGE JAPANESE IMPERIAL MORNING GLORY

2845 This mammoth-flowering Japanese Morning Glory often measures more than 4 inches across in innumerable different colors which are entirely distinct from ordinary Morning Glories. For pot culture, if the runners are pinched two or three times the plant will form a dwarf and compact shape bearing many gigantic flowers. Excellent for pot, window box and balcony. **Pkt. 25c.**

2844 Clark's Heavenly Blue Giant Improved Early Flowering. (New). This splendid Moonflower has glorious large blooms measuring 4¼ inches in diameter. They are an intense sky blue color shading to white in the throat. The blooms remain open until noon. Its extra early flowering habit makes it particularly valuable in sections where other Moonflowers are too late. We feel sure that our customers will be most favorably impressed with it for it truly is lovely. **Pkt. 25c; ¼ oz. \$1.00.**

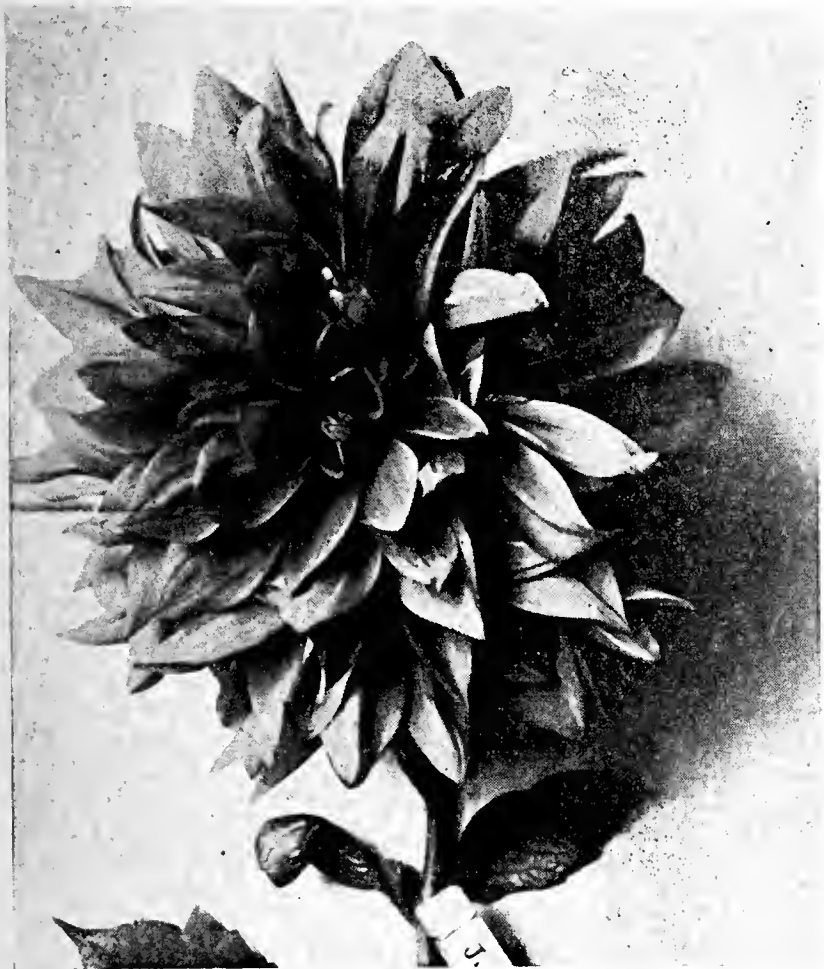

2843 Improved Heavenly Blue. Luxurious grower. Bears enormous flowers of clear sky-blue with white throat and glossy green foliage. Flowers all summer. **Pkt. 25c; ½ oz. \$1.00.**

CARDINAL CLIMBER

2841 Cardinal Climber. Grows rapidly when planted in rich soil and sunny location. About 15 feet in a season. Flowers are cardinal red, tubular-shaped, 1 to 1½ inches across and borne in many new clusters each morning. **Pkt. 15c.**

Fraser's California Dahlia Seeds have made History

California has completely superseded any other section of the country in producing Dahlia seed. Our Dahlias have been awarded cups and ribbons on many occasions and our seed has produced "Daughter of Venus", one of the loveliest Dahlias yet known (tubers are now selling for \$10.00 each), as well as many other varieties too numerous to mention, which have been developed on private estates throughout the world. The varieties on this page give you the evolution of the Dahlia, from the tiny singles to the giant decoratives with their massive blooms often measuring 10 inches in diameter, to the more refined cactus type, and the graceful miniatures. All produce a vast wealth of brilliant coloring and have a most attractive effect in the garden. Parent plants are used for seed only, and are carefully grown to keep the strains pure and true to type. Different types have a varying germinating period, from 7 to 14 days. Dahlia seed is as easy to grow as Zinnias, and will produce flowers in from 90 to 120 days.

Daughter of Venus

ALL SEED IS OF 1938 CROP

SUPER-GIANT TYPES—Hand-picked Seed

278 Fraser's Bantam Hybrids, mixed. (Coltness Hybrids). The charming double and semi-double flowers come in warm colors, on dwarf plants. Fine for bedding purposes as well as for cutting. **Pkt. 50c (100 seeds).**

FRASER'S DAHLIA SEED A REAL THRILL

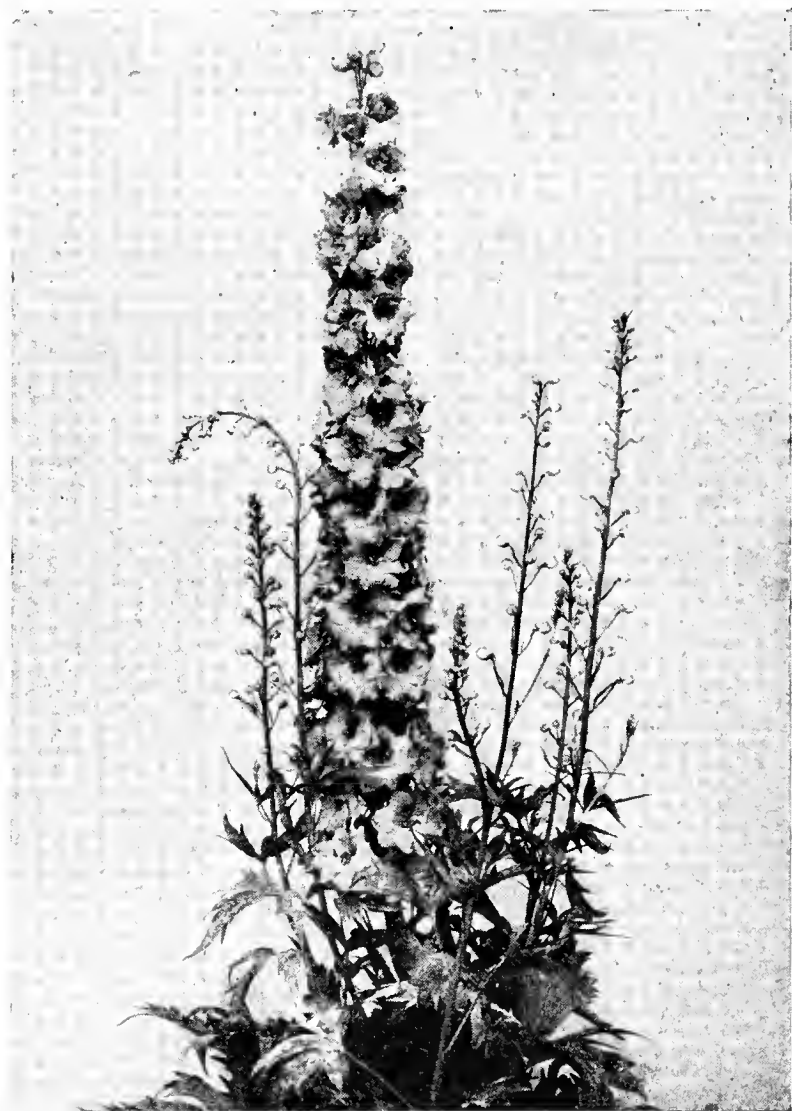

"I believe the greatest pleasure and surprises in our garden activities last summer was growing Dahlias from seed. Seeds were purchased from Fraser & Son, seeds sown on April 15th in flats and set out the latter part of May, and first bloom was out about 112 days from date of seed sowing. Each plant produced a different color bloom, everyone of them gave us a thrill in watching the buds develop."—Mrs. Charles R. Rode, 217 Fountain Ave., Waukesha, Wisc.

DELPHINIUM

Hardy Perennial Larkspur

The Best Loved Blue Garden Flower

is surely the hardy perennial Delphinium. In our carefully selected strain, each compact tapering spire of blooms is a dream of rare beauty. The colors are indescribably beautiful—rich and delicate, blends of breath-taking loveliness. They grow three to six feet tall, so are excellent background plants. By far the best time to start delphinium is in the fall months of August, September and up to November. Seed require 15 to 20 days to germinate. Orders from this catalog receive seed harvested during the late part of July, 1938. Maximum size flowers are not produced until the second blooming season. Special leaflet on the culture of Delphinium from seed will be supplied if requested at the time of ordering.

Larkspur—Miss California

LARKSPUR—An Annual Supreme

This annual enjoys a never-waning popularity. In borders, beds and wherever a lovely filler is desired we find larkspur being used. It is an annual delphinium very different from its perennial relatives. Indeed, it is delightfully informal and one of the gayest of summer-blooming annuals. Florists relize its value as a cut flower. The new varieties of our modern larkspurs are very large and double with a superb color range.

EARLY FLOWERING GIANT IMPERIAL

The finest Larkspur yet produced. Plants are of upright growth like the delphinium, each of the many branches starting from the ground produces an exceptionally long and solid spike of color. Grows 3 to 4 feet.

**Nasturtium Caprice Double**

2606 Caprice. Double, sweet-scented, semi-dwarf. Primrose and salmon-cerise blotched, streaked or mottled in various degrees. Pkt. 25c.

NASTURTIUMS

(See Page 27)

Today nasturtiums are more popular than ever before. Not only are the old favorites being planted, but we have such a variety of improved strains with truly gorgeous blooms. For easy culture and brilliant colors they are unsurpassed. Sow the seed in April or May—as soon as the ground is warm. As the seeds are large, soak them in lukewarm water for a couple of hours, then drop in holes 8 inches apart, two seeds to a hole. This saves thinning later.

FOUR O'CLOCK Marvel of Peru**MIRABILIS JALAPA**

Tender Perennial—2 ft.

2429 Tall Mixed. An easy to grow tender perennial usually treated as an annual. Flowers are shades of red and yellow. Roots can be lifted and stored and replanted in spring. Pkt. 15c; oz. 25c.

**MYOSOTIS FORGET-ME-NOT
THE NATIONAL FLOWER OF BELGIUM**

Biennial—1 ft.

**DWARF NASTURTIUMS
NOVELTY BABY SINGLE
LILLIPUT NASTURTIUM**

A very pretty, dainty little nasturtium; novel and new to most flower lovers. The plant is fully dwarf in every sense; leaves are small and the flowers are perfect replicas in miniature of the larger members of the family. They are colorful and profuse bloomers. Planted in solid beds, borders or the rock garden they are most attractively used.

- 2671 Mixed Colors.** Blended mix of colors. Pkt. 15c; oz. 35c.
- 2583 Ivy Leaved Mix.** Dwarf grower, star-shaped leaves with white veins giving it an appearance of English Ivy. Flowers come in many bright shades, richly marked.

Any of above: Pkt. 15c; 1 oz. 25c.

TALL OR CLIMBING NASTURTIUMS

- 2650 California Special Mixture.** Tall varieties in a fine collection of colors.
- 2651 Lobb's Climbing.** A variety which grows 12 feet high, particularly useful for covering fences; leaves are larger than on tall or trailing types and the flowers come in many brilliant colors.

Any of above: ½ oz. Pkt. 15c; 1 oz. Pkt. 25c.

GIANT PANSIES

Most romantic in all flowerland is the Pansy. The very name means "thought". Children are particularly attracted by their smiling faces and love to have them in gardens of their own. Remember, there are two distinct types: ordinary and "Giant" or those of improved types. In accordance to type is the price of seeds; and in accordance to price we get the blossoms. It is much more interesting, satisfactory and inexpensive to grow your own pansies from seed. By so doing you may select your own types and take advantage of some of the finest varieties the plants of which are not offered for sale. Plant seed early in the spring.

NEW PANSY NOVELTY

- 1080 Dwarf Swiss Mixture.** The colors are the same as in the original Swiss strain, but the plant is considerably more dwarf and compact. Pkt. 35c.

BABY PANSY

- 1108 Little Johnny Jump-up (Viola Tri-color. Heartsease).** Diminutive, small elfin face, no larger than your thumbnail. Rich yellow, blotched and marked with violet-blue and dark maroon. Captivating and sweetly fragrant, a rare gem for your garden. Pkt. 15c.

1071 Super Swiss Giant Pansy. Pkt. 50c

NEW PANSY

- 1099 Shakespeare's Pansy.** Dainty, elfin, small flowered. From the same strain as those growing in Shakespeare's time. Pkt. 25c.

FRASER'S GIANT PANSIES

- 1071 Super Swiss Giants. Roggli strain.** Produces unusually large flowers on long stems. A very choice selection of colors and a strain most gardeners know and rely on. Unexcelled in size and quality. Pkt. 50c; ½ oz. \$2.50; 1 oz. \$7.50.

- 1072 Fraser's Prize Giants.** An extra good strain at this price. Beautifully blotched flowers of large size and heavy texture. Compact plants and long stems fine for cutting. Pkt. 25c; ¼ oz. \$2.75.

- 1077 Triumph of Giant (Armacost & Royston Strain).** A super-pansy; lovely, distinctive strain, bearing extra large flowers, prettily blotched, strong stems. A fine range of colors. Pkt. 50c; ¼ oz. \$4.00.

- 1079 Pacific Majesty (Trimardeau).** Where a large flower of good quality and assortment of colors is wanted for bedding or border you will find this one entirely satisfactory. Pkt. 15c; ½ oz. \$2.35.

- 1078 Oregon Giants (Mastadon).** Fine well-formed large flowers somewhat flattened and "full-faced". Excellent colors and markings. Pkt. 50c; ½ oz. \$2.50.

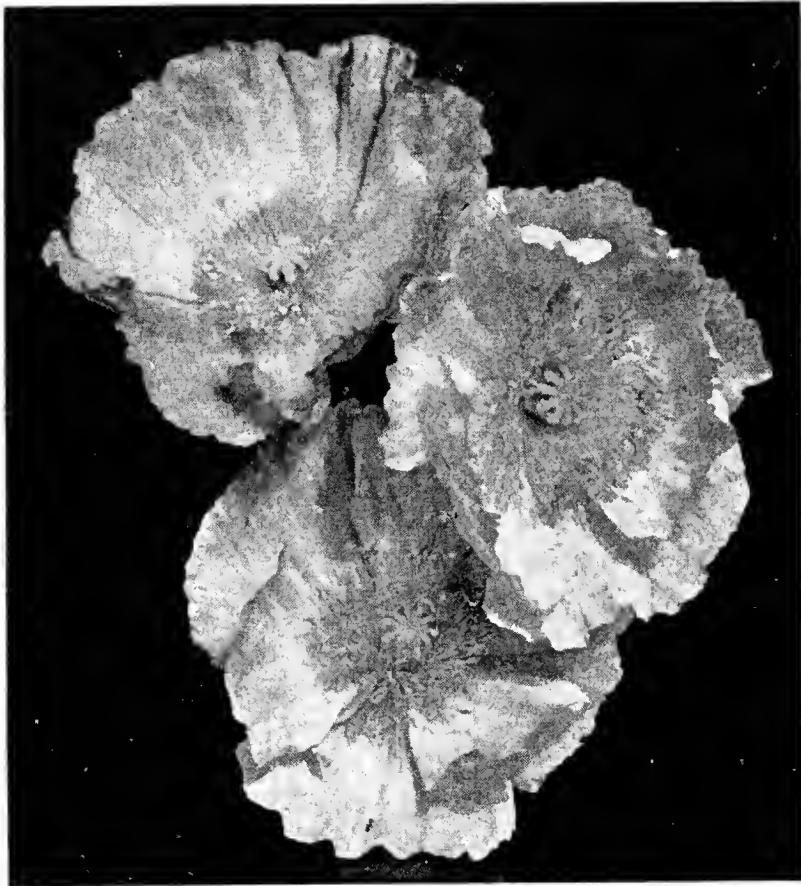

**FRASER'S VARIETY PANSY BLEND
No. 1100**

A choice mixture of 10 choice strains and separate colors. Large flowers of uniform size and beautiful colors and markings. Exceptionally fine for bedding. Pkt. 25c; ½ oz. \$2.50; oz. \$4.00.

Fraser's World Famous Petunias

What flower succeeds under more unfavorable conditions than the Petunia? And what flowers lend themselves to more uses? When massed in beds they truly form a sea of color. As low border plants, in solid beds, in window boxes, they supply magnificent blossoms. The Petunia loves sunshine, but will do unusually well in partially shady situations. They bloom within two months and in some sections of California bloom throughout the year. Petunias now are a Fraser specialty.

574 ROYAL PURPLE. Frilled edges. 534 ROMANY LASS. Coppery 587 THEODOSIA. Rose-pink. 535 SCARLET BEAUTY. Frilled 594 COERULA. Steel-blue.

STOCKS . . . Gilli Flower

"The World's Best Double Stock"

All our California grown stocks bloom at least two weeks earlier than seed grown in any other section of the world. If you were to have but one flower in your garden we would recommend stocks, for it seems to be well nigh indispensable. They have the color, beauty of individual flower, as well as the flower stalk as a whole, besides a wonderful fragrance that few other flowers can equal. Our strain of Sun Ripened Seeds will give you enormous pyramids of double blossoms so thickly set that they overlap, and they will produce a very high percentage of double flowers.

To have a bed of all double stocks we suggest that you sow the seed thickly in open ground, if plants are started in the cold frame, set out young seedlings very close together, then thin out all the singles when plants flower, leaving only the doubles. You will have a gorgeous bed of double stocks.

EARLY GIANT IMPERIAL STOCKS

Improved Bismarck. 2 to 2½ feet. Double. Of special value for greenhouse growing for cut flowers in winter months and recommended for winter and spring bloom in mild climates, where it can be sown spring and fall.

STOCK, GIANTS OF CALIFORNIA

This magnificent group comes very early, having the branching habit of the Bismarck, with mammoth flowers on longer stems; on this account it is a great improvement over all forcing stocks. We can with confidence recommend it to growers and gardeners; its branching habit lends itself admirably for bedding work and it comes with a high percentage of double plants, 34 inches tall.

VEGETABLE SPECIALTIES

VT829 Tomato, New. Fraser's Red Heart. Is the most perfect Tomato we believe produced so far, and it is very early. On trellises it is very ornamental and does not detract from a flower garden. Plants are thrifty and heavy producers, and long-bearing. Fruits uniformly deep scarlet and globe-shaped, medium large, smooth, solid and of distinct quality. **Pkt. 15c.**

VG235 Cucumber. Fraser's California Lemon. You do not know what real Cucumber flavor is unless you have tasted this superior Cucumber. For slicing and general salad use, and unusually fine for pickles. Fruits are deep yellow from the time they form until they become 3 to 3½ inches long and almost as blunt as the shape of a giant lemon. **Pkt. 10c.**

VT67 Broad Windsor Bean. The Wonder. Similar to the American Lima Bean but with a richer, marrow-like flavor. Bushy plants, 14-16 inches with pods 12 inches long filled with plump, delicious beans. **Pkt. 10c, ½ lb. 30c, 1 lb. 50c.**

TO OUR SEED CUSTOMERS

In our California trial grounds seed from all over the world is tested out.

This seed in many cases comes from Europe, Asia, Africa, Australia, and the Hawaiian Islands. In the background lies the romantic story of the years of research and exploration on the part of Horticulturists and Plant Breeders the world over. Lives are dedicated to the creating and improving of new types of plant life; knowledge is garnered from far corners of the globe, and the finished products are brought to you in the fascinating introductions which are found in the regular alphabetical arrangements of this catalog, which includes novelties of this year and last.

We bring you the fruits of our efforts. It is our purpose at all times to serve you with the best that can be produced. We invite you to peruse our catalog, in which we offer you California Sun-Ripened seeds at fair prices.

DOUGLAS G. FRASER,

President and General Manager.

OUR MOTTO IS QUALITY AND QUANTITY

Our seed packets selling for 15c and 25c contain two to four times as much seed as the standard 10c packet, which we do not list.
